ICE OVERWORKS THE DRY DOCKS. You Can't Get Your Ship Mended to a Hurry Here Now.

There are many crippled ships and small river craft on the waiting lists of the several dry docks as the result of a week's bucking facilities is far ahead of the supply, partly because of the unusually large number of leaky bottoms and broken paddle wheels, and partly because some of the dry docks themselves are not accessible just now on account of the kee. It is aimost impossible to get damaged boats through the Kills to be get damaged boats through the Kills to against the ice. The members of the Bureau of Contagious Diseases of the Health Beard are highly incensed at the action of the Mount Vernon authorities in dumning a case of smallpox on this city, but as the patient is already on North Brother Island nothing can be done about it. The authorities at Mount Vernon, however, have been notified by the Health Board that no more of their smallpox cases Board that no more of their smallpox cases will be looked after at the expense of this

ACCUSED NURSE ON HIS TRIAL. Defence Will Object to the Calling of Insane

Ward Patients as Witnesses. Six jurors were secured vesterday for the trial before Judge Cowing, of Jesse R. Davis, one of the three nurses indicted for mandaughter in the first degree in causing the death of Louis Hilliard in the insane pavilion of Bellevue Hospital on Dec. 12. Lawyer Wellman, of counsel for the defence, thought that this was good progress for three hours' work. Judge Cowing didn't, and said that an entire jury for any trial ought to be sesured in three hours.

"six jurors in three hours is the precedent in New York," said Mr. Wellman. "I'd like to see the precedent broken, then,"

said the judge In the course of the day Mr. Wellman moved that the prosecution be directed by the Court to disclose the names of two men who had been patients at the Manhattan State Hospital and who are to be witnesses, in order that the defence may look up their past lives. The motion was dealed.

Mr. Wellman told the reporters afterward that he didn't think a man should be required to take the chance of being sent to State prison on the evidence of linsane men. He thought that the use of such witnesses by the District Attorney was imprecedented and a matter to be fought.

District Attorney Philbin said that he did not care to be drawn into a controversy with Mr. Wellman, but that all of the methods to be used by the prosecution had been carefully considered and that Assistant District Attorney Pleiter would be able to show plenty of precedent for the use of any witnesses he might call.

The jurors were taken from a special panel. Michael Dotson, a negro, was one of the talesmen, and he was so abruptly excused to both sides that he hurried up to District Attorney Pliftin's office and asked if it was the policy of the office to exclude negroes. STRIKING AT THE "DEADBEAT." Bill Being Prepared in Jersey to Enforce Pay-

ments by Judgment Debtors. A bill is being prepared, to be introduced in the present New Jersey Legislature, in which it is provided that the court may examine a judgment debter as to his ability to pay, after first ascertaining that the claim exists for "necessaries of life." If it is found that his income will allow, after setting aside a reasonable sum for the support of his family. the bill provides that he shall be forced to settle the debt by installments. If the debtor fails to comply he may be adjudged in con-tempt of court and be punished accordingly. It is provided that the court shall exercise careful discretion in deciding whether the circumstances of the debtor are such that he is able to pay under judicial enforcement.
